

LinkIDAHO RPT Orientation – Investment Priorities Summary (no detail)

Region I Broadband Investment Priorities Brainstorm List

- Increase student access in the home for distance learning resources.
- Aggregate demand among local organizations such as healthcare, public safety, economic development, education to support connectivity and sustainability.
- Develop a sustainability strategy around the Idaho Library grant to support connectivity costs by aggregating demand.
- Improve connectivity in hospitals, especially rural.
- Encourage telework programs to support economic development.
- Encourage development of micro businesses in communities using broadband access.
- Increase basic computer literacy.
- Increase use and access of broadband for city government communication.
